

# TUMBLING TIMBER TOY

## GAMEPLAY INSTRUCTIONS

INCLUDED: **56**  
PINE WOOD BLOCKS

### SETTING UP THE GAME:

#### STEP 1

Lay 3 blocks down, side-by-side.

#### STEP 2

Lay down 3 more blocks cross ways on top.

#### STEP 3

Repeat stacking until you've built your tower!

### GENERAL RULES:

- You can play solo or with as many friends as you want!
- Any tower block on any level can be used, except those from the top level being added to.
- Use only one hand to remove blocks. You may not use the other hand to hold the tower steady otherwise that's cheating!
- Only one block can (and should) be moved at a time during a player's turn.
- The game is over once any blocks or the whole tower falls!

### HOW TO PLAY THE GAME:

- 1 The player that built the tower moves first. Take one block from any level of the tower and replace it at the top to make the tower taller.
- 2 Take turns moving blocks until someone knocks down the tower!

### FUN RULES: (OPTIONAL)

Use the numbers on the bottom of the blocks!

Each number can correspond to an instruction below, or make your own rules!

- |                                     |   |
|-------------------------------------|---|
| #1 Reverse Order                    | #5 Next Player Must Use One Hand Only         |
| #2 Skip Next Player                 | #6 Skip Your Next Turn                        |
| #3 Take Another Block               | #7 Next Player Has 10 Seconds to Pull a Block |
| #4 Choose Player to Take Next Block | #8 Choose Block the Next Player Must Pull     |

## SCORE CARD

Keep track of which players win each round! A round ends when the tower falls. The player that knocks down the tower gets no points, but the winner(s) get 1 point. Add up all of your points when the games are done to see who the winner(s) is!

	P 1	P 2	P 3	P 4	P 5
ROUND 1					
ROUND 2					
ROUND 3					
ROUND 4					
ROUND 5					
TOTAL WINS					

## CUSTOM RULES

Create your own fun rules for the block numbers and have a blast!

#1	#5
#2	#6
#3	#7
#4	#8
