

EARLY LITERACY BEGINS WITH YOU!

You can help your child get ready to read years before they start school. From the time they are infants, children learn language and other important skills that will help them learn to read. The pre-reading skills that children need to learn before they enter school include five early literacy practices: singing, talking, reading, writing and playing. The Library supports all five early literacy practices by hosting a variety of programs designed to encourage early literacy through books, music and movement.

VIRTUAL MONTHLY PROGRAMS
